Revenue acceleration continues, profitability stable; guidance re-iterated

¹ Excluding the negative impact from regulatory changes (mainly driven by the mobile termination rate cut to EURc 0.95 per minute as of 1 Dec 2018)

⁴ Excluding additions from capitalised right-of-use assets (as of 1 January 2019) and excluding additions from capitalised finance leases (till 31 December 2018)

² Mobile service revenue include base fees and fees paid by our customers for the usage of voice, sms and mobile data services. Also, access and interconnection fees as well as other charges levied on our partners for the use of our network are included

³ Exceptional effects were EUR 1.8 million of restructuring expenses in the period June to September 2019 (EUR 8.4 million based on IAS 17). The difference between restructuring charges under IAS 17 and IFRS 16 is due to the fact that certain IAS 17 operating lease commitments require the recognition of provisions, whereas those are recognised as lease liabilities under IFRS 16. Regulatory effects amounted to EUR 10.3 million in the period June to September 2019

OIBDA reflects continued market & transformation invest in growth

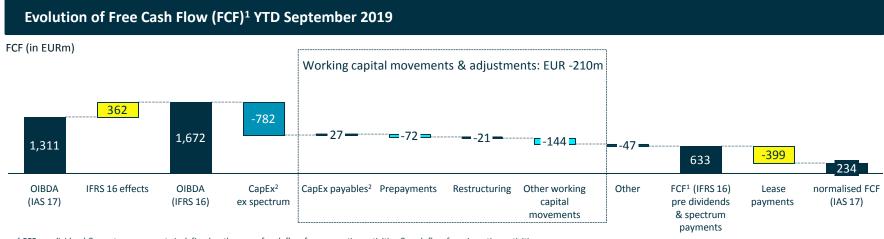

¹According to IAS 17, restructuring costs were EUR 48 million. The total resulting IFRS 16 effect at reported OIBDA level comes to EUR 338 million. The difference between restructuring charges under IAS 17 and IFRS 16 is due to the fact that certain IAS 17 operating lease commitments require the recognition of provisions, whereas those are recognised as lease liabilities under IFRS 16

² Includes other expenses and impairment losses in accordance with IFRS 9

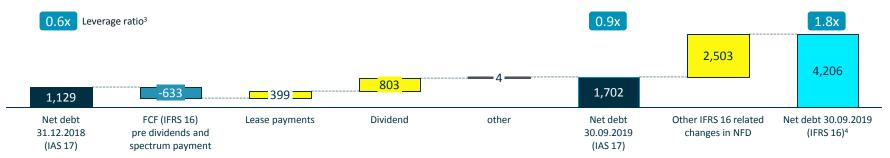

FCF dynamics reflect implementation of IFRS 16 and usual seasonality

¹ FCF pre dividend & spectrum payments is defined as the sum of cash flow from operating activities & cash flow from investing activities

Evolution of Net Debt³ – Leverage³ in line with target

³ For definition of net debt & leverage ratio please refer to Q3 2019 earnings release

⁴ Leverage is defined as net financial debt divided by the OIBDA for the last twelve months adjusted for exceptional effects. Leverage under IFRS 16 is calculated based on an extrapolated rolling 12-month OIBDA. It will only be possible to report a leverage ratio based on actuals under IFRS 16 with the publication of the financial statements for 2019

² Excluding additions from capitalised right-of-use assets (as of 1 January 2019) and excluding additions from borrowed capital for investments in spectrum
